Comments and/or conditions

No Exceptions

SCHEDULE D

EXCERPT FROM SALT LAKE CITY INTEGRATED PROJECTS CONTRACT NO. 87-LAO-172, DATED MARCH 10, 1989, AND LOVELAND AREA PROJECTS CONTRACT NO. 87-LAO-134, DATED APRIL 28, 1987, BETWEEN THE UNITED STATES OF AMERICA AND TRI-STATE GENERATION AND TRANSMISSION ASSOCIATION, INC.

12. RESALE OF ELECTRIC SERVICE

- 12.1 The Contractor understands and agrees that, upon execution of this Contract:
 - 12.1.1 The benefits of Federal power shall be made available to its consumers at rates that are established at the lowest possible level consistent with sound business principles, in an open and public manner, and the Contractor will so demonstrate to the Contracting Officer upon request.
 - 12.1.2 Consumers receiving the benefits of Federal power will be supplied with information such that they can separately identify the composite energy and capacity costs, stated in mills per kWh, of Federal power and non-Federal power.
- 12.2 The Contractor may demonstrate compliance with this Resale Section by having its members make available to its customers, no later than 90 days after the end of each Summer Season and each Winter Season, a statement which separately identifies the Contractor's unit costs for Federal power and for non-Federal power, and the magnitude and type of other costs charged to the Contractor's customers during the previous season. The Contractor may make this information available to its customers by including the informational statement with the customer's power bill, by publishing the information in a newspaper of general circulation in the area served by the Contractor, or by any other method mutually agreed upon between Western and the Contractor. A copy of each seasonal statement shall also be provided to Western. Upon request the Contractor will provide the supporting information for its seasonal statement to Western.
- 12.3 The Contractor will have its members furnish to the Contracting Officer, the information of the United States, a copy of each schedule of resale rates in effect on the date of execution of this Contract and, upon adoption, a copy of each schedule of rates hereafter adopted.
- 12.4 The Contractor will have its members to the extent that different rules are not prescribed by State laws or by State or Federal agencies, maintain

proper books of account in accordance with the Uniform System of Accounts prescribed for public utilities and licensees by the Federal Energy Regulatory Commission.

- 12.5 The Contractor agrees to implement the distribution principles of Section 12.1 in its wholesale power contracts which include resale of Federal power upon modification or amendment thereof and all such subsequent wholesale power contracts upon execution thereof.
- 12.6 Failure to comply with the provisions of this Resale Section may result in the loss of all or a part of the resources committed to the Contractor under this Contract, as conclusively determined by Western's Administrator. The Contractor will be given written notice of noncompliance with this Section and will be given opportunity to comment prior to any final action by Western.
